An **Examiner's Amendment** to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Ms. Janice Kugler De Young, on 2/16/07.

Examiner's Amendment to the Claims

Cancel claims 3, 9-30.

Examiner's Amendments to the Specification

In page 61, line 3, delete "Example 10" and substitute therefor --- Example 9 ---.

The following is an **Examiner's Statement of Reasons for Allowance**:

Claims 1-2, 4-8, 42-51 are directed to a method of screening for compounds that modulate the activity of a KIF18A kinsein molecule of specific amino acid sequence (see SEQ ID NO:2) and specifically claimed homologs thereof comprising: (a) obtaining a test cell containing said polypeptides and/or said homologs thereof that localize to the distal ends of astral microtubules in dividing cells and a control cell containing said polypeptides, (b) incubating the test cell with a test compound and (c) detecting specifically claimed altered localization of said polypeptides in the test cell as compared to the KIF18A polypeptide in the control cell, wherein said altered localization indicates that the test compound modulates activity of the KIF18A polypeptide and specifically claimed homologs thereof.

Art Unit: 1656

Claimed method is free of prior art. Further, even though the prior art (namely WO 01/12659 and WO 02/12268 cited previously) teaches said KIF18A polypeptide amino acid sequence completely, it fails to teach or suggest a method of use of said amino acid sequence or claimed homologs thereof for detecting modulators which result in specifically claimed altered localization of said polypeptides relative to those in the control cell. Hence, said method is also non-obvious.

Claims 1-2, 4-8 and 42-51 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
